FARM FRESH**SC Christmas Tree Varieties**

Virginia Pine – The most popular Christmas pine on South Carolina tree farms. Sturdy limbs, long-lasting, great pine scent. Native to upper piedmont and mountain areas.

Leyland Cypress – Incredibly long-lasting when kept in water. Doesn't shed! Fast becoming the new Southern tradition in Christmas trees.

White Pine – South Carolina is one of the few Southern states growing this Christmas pine, which grows naturally all the way into Canada. Soft blue-green foliage, long-lasting with a great pine scent. Takes the longest to grow.

Red Cedar – Most of us in the South had one growing up. Great smell but somewhat prickly. Not as long-lasting as pines. Best cut two to three weeks before Christmas. A Southern Classic!

Carolina Sapphire – A relatively new cultivar of Arizona Cypress. Beautiful blue color and wonderfully aromatic. Longevity is similar to cedar but is soft to the touch!

Deodar Cedar – Branching and needles similar to firs. Great for decorating, sturdy but prickly. Unique musky aroma. Lasts well, but like firs, some inner needle shedding can occur. Native to the Himalayas.

**TREE CARE INSTRUCTIONS**

- Cut one inch off the tree trunk.
- Display in stand with at least one gallon of water. (Fresh trees will drink a gallon or two per day!)
- Check water daily.
- Do not place tree near a heat source.
